CS5330: Randomized Algorithms	Spring 2020

Week 5 – Additional Notes

Prof. Arnab Bhattacharyya

- The derivation of the Chernoff and Hoeffding bounds can be found in Chapter 4 of MU.

- Some notes on Count Sketch: `https://courses.engr.illinois.edu/cs598csc/fa2014/Lectures/lecture_6.pdf` (by Chandra Chekuri).

- Some notes on randomized rounding to find low-congestion paths here: `http://david-kempe.com/teaching/randomized-rounding.pdf` (by David Kempe).
